

ZK-MC30KW(DC)

ZK HV series Wall mounted/
column DC charger

ZK-MC30KW(DC)

ZKTeco develop the **ZK-MC30KW(DC)**, a 30kW DC fast charger(home edition)design for Europe & American electric vehicle who want their electric vehicle charge safety and keep privacy in their homes.

ZK-MC30KW(DC) has embedded with innovative features and delivers a stable power delivery with great convenience. Also, 30kW DC fast charger (home edition) offers electric vehicle drivers advanced technology, ensuring their electric vehicle is fast charged to hit the road.

Features

Fashion design, with small size, light weight, and low profile

Easy to install, low impact to grid

IP level 54, water-proof, dust proof, flame retardant

Full protection: UVP, OVP, OCP, OC, leakage protection, polarity reverse protection etc

Specifications

Installation Mode	Wall mounted/column DC charger
Dimension(mm)	645*454*170mm
Weight	45KG
Input Voltage	260~475V
Input Connection	3P+N+PE
Output Power	30KW
Max. Output Current(A)	50A/ 100A
Cable Length	5 Meters (Customized acceptable)
Operating Humidity	5%-90%, Non-condensing
Operating Temperature	-20°C~+50°C
Ingress Protection	IP54
Safety Function	Over voltage protection, under voltage protection, overload protection, short circuit protection, grounding protection, over temperature protection, low temperature protection, lightning protection, emergency protection and leakage protection
